## Portable Hydraulic Calf Chute, Tub and Alley

Overton Veterinary Services is proud to introduce our new, custom built, all-in-one chute, alley and tub that is designed to save time, labor and stress while working baby calves.

This is a one of a kind piece of equipment that will make branding, tagging, vaccinating, implanting and castrating baby calves a low-stress experience for both calves and cattlemen.

- **Completely hydraulic\***
- **Full 180° tilt in either direction**
- **Easy access for branding & castration**
- **4" elevation above ground level**
- **Avoid mud, manure – cleaner work area**
- **Easy set-up and take-down**

We can use this at the clinic or at your farm or ranch. We will provide an experienced, BQA trained staff to help you process your calves efficiently and with minimal stress.

***Call us today to make an appointment on-site or at the clinic***

\*Requires 110v electrical outlet
